

Philosophy, poetry and social awareness improve her work

the 1990s, the number of people in the United States who are 65 years of age or older is expected to increase from 20 million to 35 million. This increase is expected to be particularly significant for women, who are expected to live longer than men. As a result, the number of women aged 65 and older is expected to increase from 15 million to 25 million. This increase is expected to be particularly significant for women, who are expected to live longer than men. As a result, the number of women aged 65 and older is expected to increase from 15 million to 25 million.

Left: Original design. **Below:** New design. Some think that a new design might help to distinguish when used on display of the original in the Museum of Modern Art.
